## Welcome to Snack&Food

From cold snacks to pastry and praline confectionery, from self-service to take-away delicatessen, from café to gelato: with **Snack&Food**, you can create whatever set-up you like and change the service at will by adding accessories.

### Freshly made

Perfectly preserves the flavour, appeal and properties of the food.

- **Two display surfaces** for preserving products with different heights.
- **Hot snack** and **Cold snack** service in the same display case.
- Praline service switchable into Pastry or Cold snack service.

### Create your own Snack&Food

Choose from the many possible customisations

- **Wide range** of services.
- Display case with **integrated refrigerated storage**.
- Glass frame for **serve-over** or **self-service**.

### Perfection is in the details

Every element of Snack & Food is designed to offer a superior finish and meticulous attention to details.

- Display case with the **same depth as the bar counter** for seamless integration.
- Tiltable stainless steel **trays slide** in the self-service version.

# Configurations

Snack&Food offers numerous customisation options. It is possible to insert a tiltable stainless steel sliding tray on the customer side on each Self module.

All the services in the Snack & Food range can be joined together:

- with upright without partition glass for display cases with the same service;
- with a combination kit by inserting mirrored glass sides for display cases with different services.
